

## Project Design Phase-I Solution Architecture

Date	21 September 2022
Team ID	PNT2022TMID31785
Project Name	Personal Assistance for Seniors who are Self-Reliant.

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Medicine Reminders serve as good way to stay on track and uphold appropriate schedule.
- It helps in decreasing medication dispensing errors and wrong dosages.
- It is used to organize your medication doses for a certain length of time
